

ILMAMAÀ SPUMANTE BRUT VERDECA SALENTO I.G.P. BIANCO

TERRITORY

The Salento region is identified by three climatic elements: the sun, the architect that creates generous degrees of sugar, the sea, responsible for the minerality of the wines, and the wind that makes this area naturally free of disease and particularly suitable for the production of "natural" wines. Characterized by extensive flat areas and modest hilly reliefs, the Salento region is geologically constituted by a calcareous structure of medium texture.

VARIETY INFORMATION

Verdeca is a white grape variety native to Puglia, its greenish shade is suggested in its name. An elegant variety with great vigour.
